Question

As a project manager, how will you earn trust within a team?

Response

The first step in building trust is to listen to your employees. Communicating with your team is another beneficial way to build trust. Even though you're a manager, you may still make mistakes. When this happens, it's essential that you admit you were wrong.

Feedback

To do this, I would focus on communication and listening to my team. I would also be open to admitting mistakes and learning from them. As an example, if you asked me to sell you a pen, I would think of a creative way to do it, such as by highlighting the features of the pen and how it could be useful to you." 4) Rating of the response on scale of 1 to 10: 8/10
